

General Education Requirements

New core curriculum:

- Transitions I: All first-year students will complete this course in the fall semester of the first year.
- Foundations I: All first-year students will complete this course in the spring semester of the first year.
- Transitions II: All first-year students will complete this course in the spring semester of the first year.
- Lifetime Wellness (ETLA 103): All first-year students will complete this course in the fall or spring semester of the first year.
- Foundations II: All sophomores will complete this course in the fall semester of the second year.
- Great Works in Context: Students will complete this course in spring semester of the second year, or in fall or spring semester of the third year.
- Connections: Students will complete this course during the fourth (senior) year, either fall or spring semester.
- Modes of Inquiry: These courses must be taken *outside* of the prefix of the primary major. If your major or track has specific courses that are recommended or required outside of the major prefix (such as CHEM 111 for biology majors) that you anticipate will meet a “modes of inquiry” requirement, please identify those courses on the Four Year Plan with the **COURSE PREFIX and #** and the following abbreviations as appropriate. Example: **CHEM 111 (MUNW)**.
 - **(MAE)** Modes of Inquiry/Artistic Expression
 - **(MIT)** Modes of Inquiry/Interpreting Texts
 - **(MUIS)** Modes of Inquiry/Understanding the Individual and Society
 - **(MUNW)** Modes of Inquiry/Understanding the Natural World
- Proficiencies: Proficiencies may be completed by students either within the major prefix or outside of the major prefix. A single course may not fulfill more than two proficiencies. If your major or track has specific courses that are required or recommended that you anticipate will meet one or more of the proficiency requirements, please identify those courses on the Four Year Plan with the **COURSE PREFIX and #** and the following abbreviations as appropriate. Example: **THRE 100 (OC)**.
 - **(OC)** Proficiency/Oral Communication
 - **(QL)** Proficiency/Quantitative Learning
 - **(ER)** Proficiency/Ethical Reasoning
 - **(CT)** Proficiency/Critical Thinking
 - **(WC)** Proficiency/Written Communication
- Emory Abroad: Students may fulfill this requirement by completing an approved course with a study abroad component, participating in an approved semester or summer abroad program for academic credit, or a completing a non-travel course that is designated as an “international exploration” course (IE). Some GWIC courses may fulfill this requirement. If you anticipate offering a course for your major or track that will meet this requirement, please identify this specific course by using the **COURSE PREFIX and #** and the following abbreviations as appropriate. Example: **MCOM 350 (IE-Travel)**.
 - **(IE-Travel)** Emory Abroad/International Exploration-Travel for those courses with a travel component.
 - **(IE)** Emory Abroad/International Exploration for non-travel courses.

Other Courses:

- Writing Requirement: Students need to complete either **ENGL 100 and 101** or **ENGL 101**. Students with dual enrollment or AP credit for this course must provide official transcripts or proof of appropriate test scores. Students who place into ENGL 100 must enroll in the course fall semester of the first year and should plan to take ENGL 101 during spring semester.
- Technology: Students will need to take a technology exam to show proficiency. Students who do not show proficiency will need to complete **CIMT 120, 140, or another course** that will meet this requirement as indicated by the Academic Catalog. Please identify which course students in your major/track should complete by placing the course on the template in the appropriate semester (0-3 credits).
- Math Requirement: Students will need to complete the math course or courses that are required by the major/track within the first two years. Some students will be required to take **MATH 099** prior to completing their regular math requirement, and should plan to take MATH 099 in the first or second semester of the first year. Students in MATH 099 receive load credit but not credit toward graduation.
- Quantitative Course: Students will need to take a Quantitative Proficiency Exam in the first semester at E&H. Students who do not successfully complete the exam will be enrolled in an introductory QL course. This course is different from the QL proficiency within the major noted above under "Proficiencies."
- Foreign Language: All students must enroll in two semesters of a foreign language at the 100 level, one semester at the 200 level, participate in an approved study abroad foreign language program, **or** test out at the equivalent of the 102 course level (0-8 credits).
- Religious Study: All students must enroll in RELG 131, 132, or 200 to meet the religious study requirement. Please recommend a semester on the template (3 credits).
- Activity Courses: All students must complete two activity courses to graduate (.5-1 credit each).
